CHAIRMAN'S STATEMENT

BACKGROUND

A key characteristic of the ICT & Technology sector is constant and rapid change with new ways of enabling business and connecting communities emerging on a regular basis. This development is spurred on by an increasingly discerning customer base that requires smarter, more effective solutions in almost every aspect of their operations. The ability to rapidly adapt therefore remains one of the vital requirements for success.

One of the key strategies for the OMESTI Group during the year has been to shift the business towards a recurring revenue model with the goal of providing long-term sustainability. A specific objective has been to pursue opportunities where OMESTI is a business process outsourcing (BPO) provider, with contracts operated on a revenue-sharing basis.

The Group has also focused on gaining further traction in the SME sector with its range of Software-As-A-Service solutions.

Details of these business activities are provided in the section on Management Discussion & Analysis, presented on pages 8 to 15 of Volume 1 of this Annual Report.

PERFORMANCE

In spite of the challenging market environment, where the Malaysian economy continues to be impacted by global forces and just reaching a growth of 4.2% during 2016, the companies in the OMESTI Group have achieved a steady performance. Details of the Group's financial performance are provided in the section on Management Discussion & Analysis on pages 8 to 15 of Volume 1 of this Annual Report.

MARKET OUTLOOK

The Malaysian Government continues its strategic goal of transforming the economy from conventional to digital. As such, a number of initiatives and incentives have been announced during the period under review. These include a significant allocation of RM1 billion in the 2017 Budget to the Malaysian Communications & Multimedia Commission (MCMC) to ensure quality internet coverage and speed of up to a baseline of 20MB per second.

The Government also launched the world's first Digital Free Trade Zone, aimed at providing a centralised hub for internet companies to trade goods, provide services, innovate and co-create solutions.

The SME sector in Malaysia is responsible for over 35% of the country's GDP, 65% of the country's employment, and nearly 18% of Malaysia's exports. By 2020, Malaysia aims to push the contribution to GDP to 41%, and the share of the country's exports from SMEs to 23%. With SMEs representing such a major component of the Malaysian economy, the sector represents a key focus market for the Group. OMESTI will therefore continue to expand its portfolio of As-A-Service solutions to help SMEs grow their businesses.

The Government is also driving its programme to transform Malaysia into a cashless society. Enabling an e-payments ecosystem is a key factor for success in this initiative and OMESTI is working with various parties, including Touch N Go, to develop solutions for deployment in the sector.

INDUSTRY RECOGNITION

OMESTI Group companies are leaders in their respective fields with their successes and achievements often recognised by industry organisations and their peers. As such, ISS Consulting (Thailand) Ltd, part of the Diversified Gateway Solutions Berhad (DGSB) Group, received a number of prestigious accolades for its performance as an SAP Partner during the year.

CARE IN THE COMMUNITY

OMESTI has continued to incorporate new initiatives into its operations as part of its commitment to being a responsible corporate citizen.

GIVING BACK

During the year, the Group has set up the Anaho Foundation, an organisation dedicated to helping young Malaysians reach their full potential. Programmes that provide opportunities for youngsters to build their confidence, acquire new experiences and prepare them for the world at large will be the cornerstone of the Foundation's work.

Our internship programme will also be a key part of this initiative, where young students can gain first-hand exposure to the work environment and culture. During the year, a number of such students have been involved in technology development work on live projects.

Aligned to this, the Group has been actively involved in supporting youth development initiatives during the year. In August 2016, the Group's internet service provider OHANA partnered with the Kuala Lumpur Cricket Association (KLCA) to support its programme of cricket development for juniors.

In November 2016, OHANA also formed a partnership with the Squash Racquets Association of Malaysia (SRAM) to set up the OHANA-SRAM Squash League. The League is designed to foster growth of the sport in the community and provide young players with a channel to develop their skills and learn from seniors in the game.

Both initiatives are in support of the Government's drive to provide access for more young people to be involved in sports.

DIVERSITY IN THE WORKPLACE

The OMESTI Group practises a policy of full inclusion and diversity at the workplace. Appointments, promotions and other employee-related decisions are made solely on the basis of suitability of skills, experience and performance.

Our employee population comprises a well-balanced team that is results-oriented and focused on achieving the highest standards of excellence. Some 65% of our employees are male, while 35% are female. In terms of age, there is a balanced spread of youth and experience: 35% are aged 20 to 30 years old, 35% are aged 31 to 40, while some 20% are aged between 41 and 50 years old. In the upper age bracket, 8% are between 51 and 60 years old, while 2% is aged over 60.

During the year under review, a new assessment system, known as PACE (Performance Assessment Criteria for Excellence) was implemented to help employees achieve their goals on both a work-based and personal level.

OMESTI Berhad (OMESTI Group) is a leading technology player in the Malaysian market that brings together a diverse range of enterprise and as-a-service solutions for Infrastructure – IaaS, Platform – PaaS, and Software – SaaS, with the appropriate skillsets to serve multiple industries within the private and public sectors.

OVERVIEW OF BUSINESS OPERATIONS

The businesses within the Group are organised along broad business lines of:

- Business Performance Services
- Digital & Infrastructure Services
- Trading & Distribution Services

In the **Business Performance Services** segment, the Group develops and deploys technology solutions for enterprise architecture, digital court solutions, e-payments platforms, core banking, core insurance, cloud/analytics/mobile applications, document management solutions, data centres and large-scale, complex ICT implementations. The Group also fields considerable expertise in SAP implementation through its subsidiary ISS Consulting in Thailand.

In the SME space, the Group brings together a number of Software-As-A-Service solutions for smaller businesses helping to streamline operations and provide flexibility for expansion. These subscription-based solutions include Corporate Secretarial Services, Accounting & Inventory, Digital HR, Payroll Services and Intelligent Video Analytics.

In the **Digital & Infrastructure Services** space, OMESTI is one of the leading providers of large-scale networking, telecommunications and other communication systems, primarily through its subsidiary Diversified Gateway Berhad. Its telco subsidiary, OHANA Communications Sdn Bhd, services the SME community, and Fiber At Home City Networks Sdn Bhd is an Open Access Network provider servicing the residential sector.

Business in the **Trading & Distribution Services** segment involves distribution and systems integration of hardware/software solutions from some of the leading industry principals including Hitachi Data Systems, IBM, Lenovo, Oracle as well as partnerships with Microsoft.

OBJECTIVES & STRATEGIES

THE GROUP IS FOCUSED ON ENSURING ITS NEW BUSINESS VENTURES ARE EQUIPPED TO PURSUE, WIN, AND EXECUTE NEW PROJECTS.

The overriding goal of the OMESTI Group is to deliver best-of-breed solutions that simplify the complexities of business operations for its customers.

One of the key strategies during the year under review has been to shift the Group's operations towards a recurring revenue model with the aim of providing long-term business sustainability. A specific objective has also been to pursue opportunities where OMESTI is a business process outsourcing (BPO) provider, with contracts on a revenue-sharing basis.

Short-Term Goals

In the short term, the Group is focused on ensuring its new business ventures are equipped to pursue, win and execute new projects. It is also committed to ensuring the continued successful delivery of its large-scale digital transformation projects. Development of best-of-breed technology solutions for the market is also a key priority.

Long-Term Goals

In the longer term, the Group will continue to build its footprint as a mainstream BPO (Business Process Outsourcing) provider, both in the domestic market and across the ASEAN region. Development of a strong revenue recurring business model is the primary focus for the Group and it will leverage the alliances it has formed with strategic partners (see below under Product Development) to expand geographical coverage and access new industry sectors.

REVIEW OF OPERATING ACTIVITIES

PUBLIC SECTOR PROJECTS

Over the course of FYE 2017, the OMESTI Group secured a number of important projects for various government entities. These include:

- **Environmental Enforcement Systems** for Jabatan Alam Sekitar, under Ministry of Natural Resources & Environment
- **Infra for Local Council Management Systems (ePBT) and One Stop Centre (OSC)** for Works Approval Systems, under the Local Government Department, Ministry of Urban Wellbeing, Housing & Local Government
- **Disaster Recovery Centre** at Putrajaya for the Ministry of Education

as well as outsourcing of hardware and database centre services for various government departments.

A number of projects for outsourcing services, broadband implementation and maintenance services were also secured with Government-Linked Companies (GLCs) including Tenaga Nasional Berhad, Petronas Berhad, Petronas Dagangan Berhad and Telekom Malaysia.

DIGITAL REGISTRY SOLUTIONS

As part of its ongoing strategy to secure large-scale infrastructure projects to provide long-term recurring revenue, the Group achieved successes with key project wins for leading Malaysian regulatory authorities. One of these is for **Suruhanjaya Syarikat Malaysia (SSM)** (Companies Commission of Malaysia) to develop and implement a new XBRL (Extensible Business Reporting Language) financial reporting standards platform.

The project involves a comprehensive re-engineering of the SSM online infrastructure to an XBRL domain, which will enable companies to file annual returns and audited accounts electronically. The initiative will also enable SSM to capture critical financial information and other key data from registered companies, to provide powerful analytical insights into the Malaysian corporate landscape and enhance transparency in cross-border dealings.

COURT INFRASTRUCTURE SOLUTIONS

Development and roll-out of the new eCOURTS Digital Court Infrastructure platform has continued during the period under review, with ten locations brought on stream as of July 2017, with data migration of records also completed.

This major project has involved the end-to-end design and development of new Case Management and eFILING modules for civil and criminal cases, as well as a revamped public portal.

Once fully rolled out, the new system will be online at a total of 20 locations across West Malaysia with links to external government agencies including Polis Diraja Malaysia, Jabatan Pengangkutan Jalan, the Land Office and others. A new mobile app will also enable lawyers and government agency users to view cause lists and case schedules, view their filing history, make payment via the mobile portal and access the search function.

The proprietary eCOURTS solution - developed, implemented, supported and maintained by an integrated team from OMESTI - delivers improved productivity and functionality for the judiciary, court officers and legal practitioners over a secure platform. The solution has also been implemented in Brunei and is being further marketed by OMESTI to other countries.

OMESTI is the exclusive distributor in Asia for the JAVS Court Recording & Transcription (CRT) solution that is deployed in over 400 court rooms across Malaysia.

The Group also recently served as ICT partner to the Court Department to implement the CRT systems for the newly introduced Court for Sexual Offences Against Children at the Palace of Justice, Putrajaya.

SME SOLUTIONS

In a move to bring all its Software-As-A-Service offerings under one umbrella, the Group has set up OMESTI Actify to provide a single point of contact for SMEs and others requiring fit-for-purpose business solutions. During the period under review, headway has been made across the following portfolios:

Corporate Secretarial Services: Companies are showing increasing interest in outsourced services to ensure compliance with statutory requirements, particularly following the introduction of the new Companies Act, 2016.

Accounting & Inventory: New customers have been acquired for cloud-based accounting and inventory services, using the Account365 platform, for which OMESTI is an approved reseller.

Digital HR: Via its partnership with Microimage HCM of Sri Lanka, OMESTI has secured a number of key opportunities for its proprietary HCM Cloud platform.

Payroll Services: Interest in the Group's outsourced Payroll Services is growing as SMEs look to remove some of the in-house administrative overheads in order to focus on their core business.

Intelligent Video Analytics: Several project wins with selected retailers and mall operators have also been secured for OMESTI's intelligent video analytics solution VIDA. VIDA provides mall operators and retailers with a range of analytics extracted from video footage to enhance business and security intelligence, providing greater insights into customer behaviour and enabling better optimisation of resources.

ePAYMENT SYSTEMS

Another of the major planks of OMESTI's strategic roadmap for the future is the development of its ePayment solutions portfolio. Its digital wallet concept, which runs on the Bancore platform, has gained further traction in Vietnam during the period, where some 1 million virtual VISA cards have been issued and the number of transactions made through the platform is increasing rapidly.

In West Africa, where this mobile wallet service appeals to the mass market, the platform has gained similar traction, enabling consumers to manage their prepaid card expenditure via their mobile device.

In Malaysia, OMESTI, in partnership with Touch N Go, the Malaysian national prepaid payment card provider, has continued its deployment of e-top-up kiosks at strategic locations around the country. These currently include Malaysia's national bank headquarters, Bank Negara, central transport hubs, selected retail malls and the toll highway network. The rollout programme is targeting to have 350 kiosks operational within a two-year period. In parallel, work is currently underway to enable an e-payments platform via these kiosks.

FIBRE BROADBAND

Subscriptions for OHANA's business fibre broadband and other related services catering to SME requirements have seen a steady increase during the year.

OPEN ACCESS NETWORKS

Fiber At Home City Networks (Fiber@Home) has progressed installation of its last-mile high-speed fibre infrastructure at a number of property developments around the country, providing connectivity for delivery of multiple telco, entertainment and security services across a single network. There are currently some 12,000 homes ready for connection at 35 leading commercial and residential developments in Johor, Penang and Selangor.

SIGNIFICANT CHANGES

There have been no significant changes during the period that affect the operations of the Group.

PRODUCT DEVELOPMENT

In order to enhance its technology portfolio, the Group has formed strategic alliances with leading organisations in the business registry solutions and financial reporting standards space. A partnership has been established with Foster Moore of New Zealand, the world-leading electronic registry solutions provider, whereby OMESTI will be the implementation partner across South East Asia for Foster Moore's core registry solution Catalyst™.

Similarly, a partnership has been set up with IRIS Business Services Ltd of India, the global leader in the XBRL (Extensible Business Reporting Language) solutions market, for OMESTI to market its XBRL solution across ASEAN. These two partnerships enable OMESTI to span the full digital core registry and reporting solutions spectrum in a region where a high percentage of these processes are still performed manually.

MANAGING RISK

The rapid speed of technology development versus the comparatively slower rate of adoption by enterprise customers in some industries presents a considerable threat to the organisation as it strives to bring best-of-breed solutions to the market and achieve project wins.

Competition from smaller organisations that are moving out of their traditional comfort zone is also a key risk, with these organisations undercutting on price to capture market share, leading customers to make decisions based on cost rather than quality.

THE GROUP HAS FORGED STRATEGIC PARTNERSHIPS TO ENSURE THAT IT CAN GO TO MARKET WITH **STRONG FUNDAMENTALS**, WHILE REMAINING **AGILE AND FLEXIBLE**.

In mitigation, the Group has forged strategic alliances and partnerships with several of the leading technology players in the industry – as mentioned above – to ensure that it can go to market with strong fundamentals, while remaining agile and flexible. The Group is also focused on building closer relationships with customers and channel partners in order to ensure the key benefits of its solutions and services are conveyed and understood clearly.

Foreign exchange risks, especially in connection with borrowings and procurement activity in foreign currencies, is also one of the principal risks facing the organisation. To minimise the impact of any devaluation of the Malaysian Ringgit, the Group and its subsidiaries have adopted a policy of limiting the validity on price quotations and quoting wherever possible in US Dollars. The Group is also sourcing from local sources wherever practicable.

Prompt collection from trade receivables continues to be a concern for the business in the current challenging market environment.

FINANCIAL PERFORMANCE

Omesti Berhad reports its financial performance along the three business segments referenced above, namely:

- Business Performance Services
- Digital & Infrastructure Services
- Trading & Distribution Services

A snapshot of the Five-Year Financial Highlights for the OMESTI Group is presented on page 18 of Volume 1 of this Annual Report.

REVENUE

The Group revenue for the financial year ended 31 March 2017 was RM420.21 million, an increase of 3.2% amounting to RM13.13 million, as compared to the previous financial year.

The Business Performance Services segment's revenue for the financial year increased by 11.8% from RM223.53 million to RM249.85 million. The increase was mainly due to higher progress billings, primarily from the government sector and the Group's subsidiary in Thailand.

Total revenue generated from the Trading & Distribution Services segment increased by 3.7% to RM207.60 million in 2017, as compared to RM200.10 million in 2016. Revenue for this segment has continued to record a modest growth over the past years from expanding its channels and offerings.

The Digital & Infrastructure Services segment's revenue for the financial year decreased by 22.2% from RM47.62 million to RM37.03 million due to lower orders and projects fulfillment.

COSTS AND EXPENSES

The cost of sales for the Group for the financial year was RM305.68 million, as compared to RM304.29 million in the previous financial year. Despite an increase in cost of sales, the Group's gross profit margin has improved to 27.3% in the current financial year, as compared to 25.3% in the previous financial year, which was mainly due to improved cost efficiency.

The operating cost for the Group during the financial year under review was RM128.65 million, compared to RM133.66 million in the previous financial year. The decrease of RM5.01 million was mainly due to the following:-

- (i) Digital & Infrastructure Services segment recorded a lower depreciation arising from reclassification of spares items to fixed assets, amounting to RM1.16 million in 2017 compared to RM2.46 million in 2016;
- (ii) Digital & Infrastructure Services segment also recorded a lower impairment loss on trade receivables of RM0.11 million in 2017, compared to RM1.50 million in 2016;
- (iii) No impairment loss on software development cost was recorded in 2017, as compared to RM2.29 million in 2016 under the Business Performance Services segment;
- (iv) Under the Other segment, the loss on fair value adjustments on other investment was lower at RM1.44 million in 2017, compared to RM3.76 million in 2016; and
- (v) No impairment loss on goodwill was recorded in 2017, as compared to RM2.06 million in 2016.

Improvements from the above were partially offset by increases in the following expenses:-

- (i) Employee benefits increased from RM83.42 million to RM89.94 million, an increase of RM6.52 million. This was mainly attributable to ESOS charge of RM4.35 million and costs associated with the Group's human capital restructuring amounting to RM1.49 million in 2017, compared to RM0.54 million in 2016;
- (ii) Impairment loss in other receivables amounting to RM2.63 million in 2017; and
- (iii) Loss on dilution of equity interest in an associate amounting to RM1.15 million in 2017, compared to RM0.06 million in 2016.

NET LOSS BEFORE TAX

The Group's net loss before tax has been reduced by 59.4% to RM11.13 million in 2017, as compared to RM27.42 million in 2016. This was mainly due to the higher revenue and lower other operating expenses across the Business Performance Services segment and the Trading & Distribution Services segment.

Despite the improvement in the Group's key business operations, the Group's financial results remain at a loss, mainly due to the effects from the accounting for non-recurring items such as ESOS charge, costs associated with the Group's human capital restructuring, impairment loss in receivables and loss on dilution of equity interest in an associate.

In addition, the start-up businesses continue to weigh down the Group's financial performance with loss contributions of RM12.77 million during the year under review, an improvement compared to RM15.83 million in 2016.

TAXATION

The Group's effective tax rate was higher than the statutory tax rate as profits of certain subsidiaries cannot be set-off against losses of other subsidiaries for tax purposes. These subsidiaries are not able to satisfy the conditions for group relief and certain expenses were disallowed for tax deductions.

LIQUIDITY AND CAPITAL RESOURCES

The Group's capital expenditure and working capital requirements have been financed by cash generated from operations and short-term and long-term loans provided by financial institutions.

Cash and bank balances reduced to RM73.39 million in 2017, as compared to RM76.26 million in 2016. This was mainly due to net cash used in investing activities amounting to RM45.01 million compared to the previous year, primarily due to continued research and development costs in relation to the Group's new core banking solution partnership with SAP Global (RM35.48 million) and data storage equipment in a new start-up subsidiary (RM8.3 million).

Total borrowings of the Group decreased from RM117.69 million in 2016 to RM112.11 million in 2017. The decrease was mainly due to the net repayment of borrowings from the utilisation of proceeds from the issuance of new shares pursuant to private placement undertaken during the financial year under review (RM6.00 million).

**MALAYSIAN ORGANISATIONS
FACE THE CRITICAL NEED TO
TRANSFORM.**

OUTLOOK

In order to combat rising competition and increasing economic pressures, Malaysian organisations face the critical need to transform. Enterprises across diverse industries such as retail, manufacturing, construction, finance, and oil & gas are at various stages of exploration and adoption of new technologies. Some are focused on internal transformation, where enterprise mobility, data warehousing, and security technologies remain highly relevant. Others are focused more on building new external applications and services.

This will result in digital transformation reaching macroeconomic scales over the next three to four years and this is changing the way organisations operate. Among the emerging trends (Source: IDC) that are set to affect the technology landscape in the coming years are:

Big Data in the Cloud: Growth for cloud analytics solutions will be three times more than on-premise analytics solutions.

Internet of Things (IoT): By 2018, connected vehicles, insurance telematics, personal wellness, and smart buildings will be the four main areas in the IoT spotlight across Malaysia, accounting for US\$700 million in spending.

Cognitive Cybersecurity: One third of cybersecurity environments will incorporate cognitive/AI technologies to assist humans in dealing with the increasing scale and complexity of cyberthreats.

OMESTI PLACES A CONTINUED FOCUS ON DRIVING TRANSFORMATION WITHIN ITS OWN ORGANISATION AND FOR ITS CUSTOMERS.

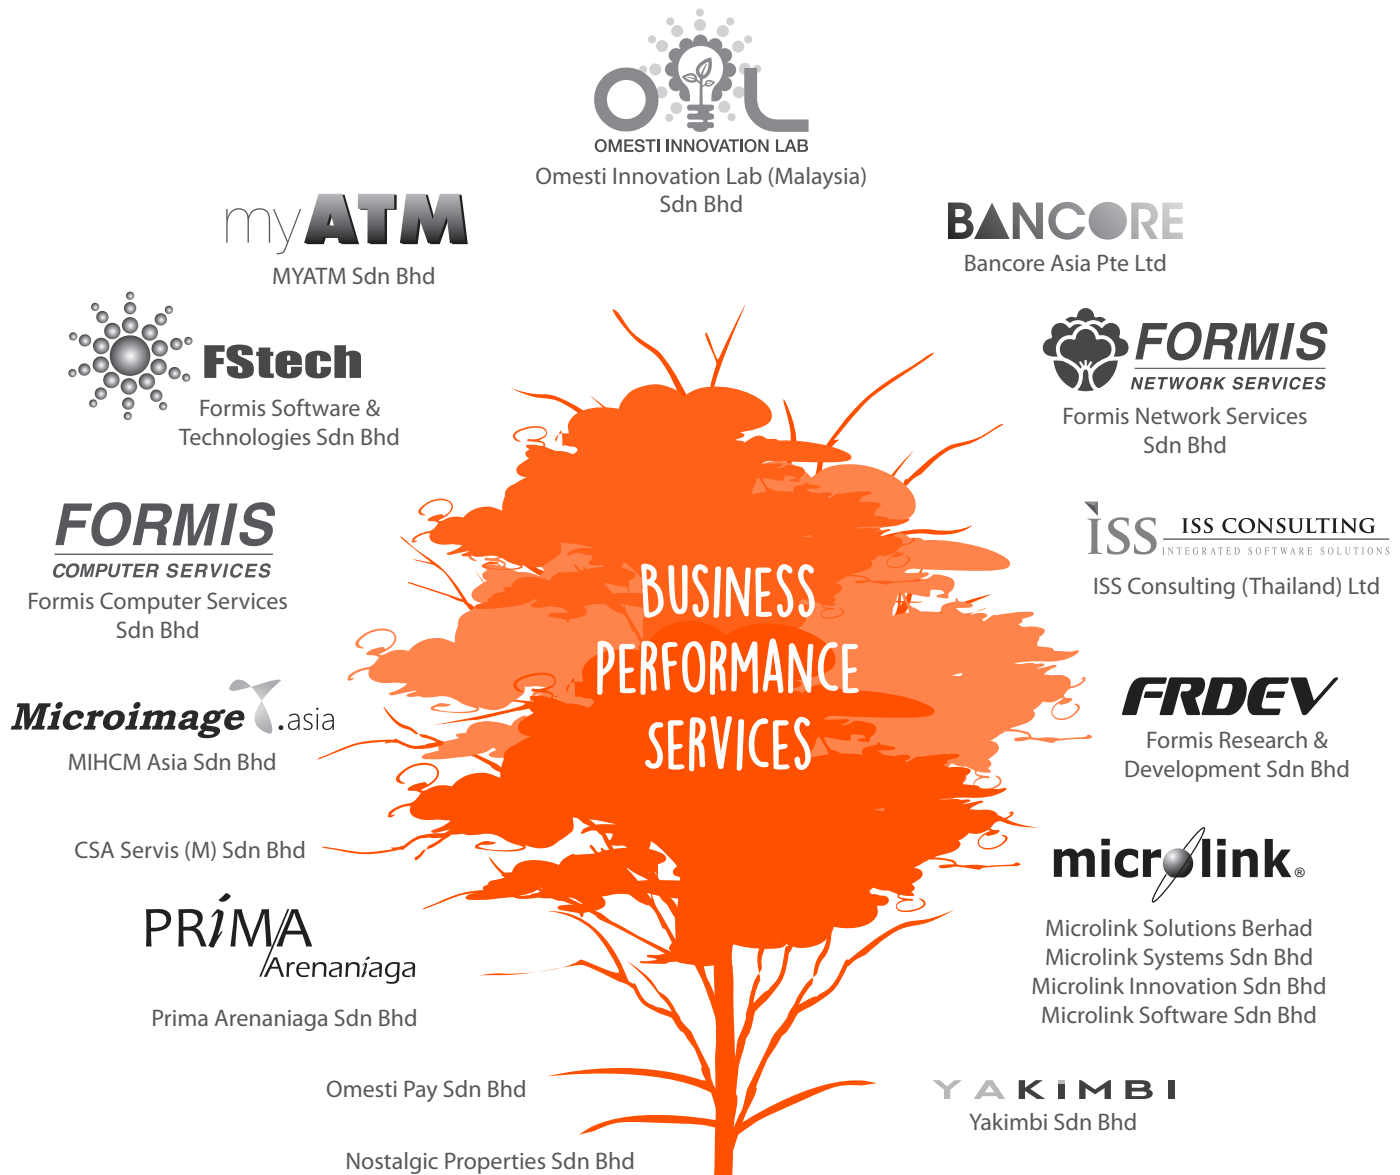

Datacentres: One quarter of companies in data-intensive industries will adopt formal datacentre planning, sourcing, and governance processes to speed digital transformation efforts.

Service Provider Strategy: By 2020, it is predicted that 60% of enterprises will reconsider their current service providers, causing a shift in the systems integrator's function from traditional to digital and the emergence of new services roles.

With specialist capabilities in several of these areas, OMESTI Group's businesses are actively pursuing the many opportunities that these trends present. With continued focus on driving transformation within its own organisation and for its customers, OMESTI is confident of a positive outlook in the years ahead.

THE BOARD

ROLES & RESPONSIBILITIES

The Board has the overall responsibility for corporate governance, strategic direction, corporate planning and overseeing the investment and business of the Group. The Board maps out the Group's strategies in addition to its responsibility to review the Management's action plans.

The Board believes that sustainable corporate success requires the highest standard of corporate behaviour including measuring up to public expectations on environmental and social responsibilities. Good corporate governance through the practice of accountability, honesty and transparency coupled with effective adoption of corporate social responsibility (CSR) will ensure the Group's sustainability in the competitive corporate world and have a positive influence on the Group's business strategy and performance in the short-term and long-term.

The Group focuses on sustainability in four (4) key areas, namely the workplace, the community, the environment and the marketplace. The sustainability strategy aims to deliver lasting value for shareholders and stakeholders.

REINFORCE INDEPENDENCE

ANNUAL ASSESSMENT OF INDEPENDENCE

The NC is responsible for assessing the independence of Independent Directors annually based on their independent and constructive views, deliberations and contributions during the Board meetings through the Assessment of Independence of Independent Directors under the annual Board evaluation process. The criteria for assessing independence developed by the NC will be applied upon admission, annually and when any new interest or relationship develops.

The NC and the Board have upon their assessment, concluded that the Independent Non-Executive Directors continue to demonstrate conduct and behaviour that are essential indicators of independence and their ability to act in the best interests of the Company, and that they continue to fulfil the definition of independence as set out in the Listing Requirements.

TENURE OF INDEPENDENT DIRECTOR

One of the recommendations of the MCGG 2012 states that the tenure of an Independent Director should not exceed a cumulative term of nine (9) years. None of the Independent Directors' tenure has exceeded a cumulative term of nine (9) years, except for Hj. Ahmad Bin Khalid. The Board has vide the NC reviewed and assessed the performance and independence of Hj. Ahmad Bin Khalid and was of the opinion that his length of service on the Board does not in any way interfere with his exercise of impartial and independent judgment based on the following justifications:

- He has fulfilled the criteria under the definition of Independent Director as stated in the Listing Requirements, and thus, he would be able to remain objective and independent in expressing his views and in participating in deliberations and decision-making of the Board and Board Committees;
- He has vast experience in a diverse range of businesses and therefore would be able to provide constructive opinion;
- He exercises independent judgment and has the ability to act in the best interests of the Company;

- He has devoted sufficient time and attention to his professional obligations for informed and balanced decision-making;
- He has continued to exercise his independence and due care during his tenure as an Independent Non-Executive Director of the Company and carried out his professional duties in the best interests of the Company and shareholders; and
- The length of his service on the Board does not in any way interfere with his exercise of independent judgment and ability to act in the best interests of the Company.

The Board will seek the approval of the shareholders at the forthcoming Annual General Meeting for Hj. Ahmad Bin Khalid to continue as an Independent Non-Executive Director of the Company.

SEPARATION OF POSITIONS OF CHAIRMAN, VICE CHAIRMAN AND EXECUTIVE DIRECTORS

The Board recognises the importance of having a clearly accepted division of function and responsibilities of the above roles to ensure a balance of power and authority.

The Independent Non-Executive Chairman presides over all meetings of the Board. The roles and responsibilities of the Independent Non-Executive Chairman, the Non-Executive Vice Chairman and of the Executive Directors are clearly established, each having separate and clearly defined scopes of responsibilities and authority. This division of roles and responsibilities ensures that there is no excessive concentration of power in these positions.

The Executive Directors have overall responsibility for the operational and business units, organisational effectiveness and implementation of Board policies, directives, strategies and decisions. The Independent Non-Executive Chairman is responsible for the leadership of the Board, ensuring its effectiveness and ensuring that proper strategy and business conduct are proposed to the Board for deliberation. He is constantly in touch with and maintains regular dialogue with the Non-Executive Vice Chairman and the Executive Directors.

FOSTER COMMITMENT

TIME COMMITMENT

The Board holds at least four (4) scheduled quarterly meetings with additional meetings being convened as and when necessary. Prior to each meeting, every Director is provided with the complete agenda and a set of Board papers well in advance to give him/her ample time to review matters to be deliberated at the meeting and so facilitate informed decision-making.

Senior Management are also invited to attend these meetings as and when required, to provide the Board with the necessary information and clarification on issues deliberated during the meetings.

A formal schedule of matters is adopted which includes strategy and policy issues, major investments, financial decisions and the annual business plan. All deliberations by the Board, including issues discussed and decisions made are recorded by the Company Secretary in the minutes of meetings which are properly kept and produced for inspection, if required.

During FYE 31 March 2017, the Board met five (5) times during which it reviewed and approved various issues including the quarterly financial results of the Group for announcement to Bursa Securities, business plan and strategy, major investments and strategic decisions, as well as the performance of the Group. The Directors observe the recommendation of the MCGG 2012 that they are required to notify the Chairman of the Board before accepting any new directorships and to indicate the time expected to be spent on the new appointment. Generally, Directors are at liberty to accept other Board appointments provided such appointments are not in conflict with the business of the Company and do not adversely affect the Director's performance as a member of the Board.

DIRECTORS' TRAINING

The Company recognises the importance of continuous professional development and training for its Directors. The Directors are mindful of the need for continuous training to keep abreast of new developments and are encouraged to attend forums, seminars, workshops and conferences facilitated by external professionals in accordance with their respective needs in discharging their duties as Directors. STATEMENT ON CORPORATE GOVERNANCE (CONT'D.)

Dato' Sri Thong Kok Khee and Mr Mah Yong Sun have not attended any training during the financial year under review due to their respective tight travelling schedule and busy/heavy work commitments. Nevertheless, these Directors continue to devote sufficient time to update their knowledge and enhance their skills through other alternatives to meet the ever-changing commercial challenges and risks.

In addition, the Directors continuously receive briefings and updates on the Group's businesses and operations, risk management activities, corporate governance, finance, new developments in the business environment, new regulations and statutory requirements from the Management, External Auditors, Company Secretary and the Internal Auditors during the Committees' meetings and Board meetings. The Board will continue to evaluate and determine the training needs of its Directors to enhance their skills and knowledge.

UPHOLD INTEGRITY IN FINANCIAL REPORTING

The Board acknowledges its responsibility for ensuring that the Company's and the Group's financial statements present a true and fair view of the state of affairs and are prepared in accordance with the applicable Financial Reporting Standards in Malaysia and are in accordance with the provisions of the Companies Act, 2016.

The Board is also committed to providing the highest level of disclosure possible to ensure integrity and consistency of the financial reports. In preparing the financial statements, the Board considers that the Group had used appropriate accounting policies, consistently applied and supported by reasonable and prudent judgments and estimates.

The Board has established an Audit & Risk Management Committee (ARMC), comprising wholly Non-Executive Directors, the majority of whom are Independent. One of the key responsibilities of the ARMC is to ensure that the financial statements of the Company comply with the Financial Reporting Standards in Malaysia. Such financial statements comprise annual financial statements and quarterly financial reports. Upon recommendation given by the ARMC, the

Board will engage in discussion and reviews before approving and subsequently releasing to Bursa Securities, Securities Commission and the public.

The Chief Financial Officer (CFO) presents to the ARMC and the Board details of revenue and expenditure, for review of quarter-to-quarter and year-to-date financial performance against budget. The CFO provides assurance to the ARMC on a quarterly basis that appropriate accounting policies had been adopted and applied consistently.

The Board upholds the integrity of financial reporting by the Company. As such, it has established procedures, in assessing the suitability and independence of the External Auditors. The ARMC undertakes an annual assessment of the suitability and independence of the External Auditors in accordance with the External Auditor Independence Policy. Having satisfied itself with their performance and fulfilment of criteria as set out in the policy, the ARMC will recommend their re-appointment to the Board, after which the shareholders' approval will be sought at the AGM. The ARMC will review the appointment of the External Auditors annually based on its assessment of the auditors' performance.

In this regard, in May 2017, the ARMC assessed the performance and the independence of Messrs BDO (BDO) as External Auditors of the Company and reviewed the level of non-audit services rendered by BDO to the Company for FYE 31 March 2017. The ARMC was satisfied with BDO's technical competency and audit independence. The assessment is based on:

- the overall comprehensiveness of the external audit plan
- the timeliness and quality of communications provided under the plan and delivered during the audit
- the competency and industry knowledge of external audit staff
- the adequacy of resources to achieve the scope as outlined in the plan
- the relationships with the Company or any other entity that may impair or appear to impair the External Auditor's judgment or independence

Written assurance is sought from the External Auditors confirming their independence throughout the conduct of the audit engagement in accordance with the terms of all relevant professional and regulatory requirements.

The External Auditors continue to report to members of the Company on their findings from the audit on statutory financial statements which are included as part of the Company's financial reports. The Company has always maintained a formal and transparent relationship with the External Auditors in seeking their professional advice and towards ensuring compliance with the accounting standards. It is the policy of the ARMC to meet with the External Auditors at least twice a year to discuss their audit plan, audit findings and the Group's financial statements. These meetings are held without the presence of the Management.

A summary of the activities of the ARMC during the financial year are set out in the ARMC Report on page 42 of Volume 1 of this Annual Report.

RECOGNISE AND MANAGE RISKS

RISK FRAMEWORK

The Board acknowledges its responsibilities for setting up and maintaining an effective system in ensuring a proper risk management environment. In achieving this, the Board has ensured that the system of internal control has taken into account the process of identifying key risks, the likelihood of occurrence and materiality.

The Board believes that the internal control systems and procedures provide reasonable but not absolute assurance that assets are safeguarded, transactions are authorised and recorded properly and that material errors and irregularities are either detected or minimised to prevent recurrence. The Board has in past years formalised a structured risk management framework to identify, evaluate, control, monitor and report the principal business risks faced by the Group on an ongoing basis.

Further details on the key features of the risk management framework are set out in the Statement on Risk Management & Internal Control on pages 39 to 41 of Volume 1 of this Annual Report.

INTERNAL AUDIT FUNCTION

The Company has outsourced the internal audit function to an independent professional firm of auditors. The outsourced Internal Auditors perform their functions with impartiality, proficiency and due professional care. They undertake regular monitoring of the Group's key controls and procedures, which is an integral part of the Group's system of internal control.

The internal audit reports are presented to the ARMC for review and deliberation. The ARMC is briefed on the progress made in respect of each recommendation, and of each corrective measure taken as recommended by the audit findings. The Internal Auditors report directly to the ARMC to ensure independence.

Details of the Group's internal control systems and the state of internal controls are further elaborated under the Statement on Risk Management & Internal Control, which has been reviewed by the Company's External Auditors, provided separately on pages 39 to 41 of Volume 1 of this Annual Report.

ENSURE TIMELY AND HIGH QUALITY DISCLOSURE

The Board recognises the importance of communication and proper dissemination of information to its shareholders and investors. Through extensive disclosures of appropriate and relevant information, the Company aims to effectively provide shareholders and investors with information to fulfil transparency and accountability. In this respect, the Company keeps shareholders informed via announcements and timely release of quarterly financial reports, press releases, annual reports and circulars to shareholders.

Shareholders and members of the public may also obtain information on the Group's operations and activities, as well as press releases, announcements and financial information, etc. from the corporate website www.omesti.com.

STRENGTHEN RELATIONSHIP BETWEEN COMPANY AND SHAREHOLDERS

The AGM and other meetings of the shareholders, including any Extraordinary General Meeting of the Company, are the principal forums for dialogue and interaction with shareholders. At such meetings, individual shareholders may raise questions or concerns with regard to the Company as a whole. Shareholders are also encouraged to participate in question and answer sessions. The Board, senior Management and relevant advisors are on hand to answer questions raised and provide clarifications as required. Where appropriate, the Board will undertake to provide written answers to any questions that cannot be readily answered at the meeting.

The Board will also ensure that each item of special business included in the notice of meeting is accompanied by a full explanation of the effects of the proposed resolution to facilitate understanding and evaluation of the issues involved.

In line with this, a Shareholders' Communication Policy has been adopted by the Company which sets out the framework that it has put in place to promote effective communication with the shareholders so as to enable the shareholders to engage actively with the Company and exercise their rights as shareholders in an informed manner. The Shareholders' Communication Policy is available for reference at the Company's website www.omesti.com.

COMPLIANCE STATEMENT

This statement on the Company's corporate governance practices is made in compliance with the Listing Requirements.

This Statement was approved by the Board on 5 July 2017.

STATEMENT ON RISK MANAGEMENT & INTERNAL CONTROL

INTRODUCTION

The Malaysian Code on Corporate Governance requires the Board of Directors (Board) to maintain a sound system of risk management and internal control to safeguard shareholders' investments and the Group's assets. The Board of Omesti Berhad is committed to maintaining a sound system of internal control and effective risk management as part of its ongoing efforts to practise good corporate governance.

This Statement of Risk Management & Internal Control is prepared in accordance with Paragraph 15.26(b) of the Main Market Listing Requirements (MMLR) and Practice Note 9 of Bursa Malaysia Securities Berhad (Bursa Securities).

BOARD RESPONSIBILITIES

The Board affirms its responsibilities for the Group's system of internal control, which includes the establishment of an effective control environment and appropriate internal control framework as well as review of its adequacy and integrity. This system is designed to identify and manage risks facing the business and covers financial, organisational, operational and compliance controls to safeguard shareholder investment and the Group's assets.

The system of internal control covers areas of corporate governance, risk management procedures, operational, financial and compliance controls as well as contingency plans, if required. The Board is aware that the control system is designed to manage, rather than to eliminate the risk of failure of the Group's business objectives in view of limitations that are inherent in any system of internal control. Accordingly, this system can only provide reasonable, but not absolute assurance against material misstatement, losses or fraud.

The system of internal control mainly applies to the operating companies and does not cover associates and inactive and dormant companies.

SYSTEM OF INTERNAL CONTROL

Key Framework

The Group's risk management framework is constantly monitored and reviewed to ensure risks and controls are updated to reflect current situations and ensure relevance at any given time. In keeping

with good governance, Management takes seriously the responsibility of ensuring that the Group is always alert to any situation that might affect its assets, income and ultimately, profits. Management has also the responsibility for managing risks and setting internal controls associated with the Group's operations, and ensuring compliance with applicable laws and regulations.

For the financial year under review, internal audit review was carried out on three (3) operating units within the Group. The result of these reviews have been reported at the Group's quarterly Audit & Risk Management Committee (ARMC) meetings and at Board meetings for discussion and deliberation. Resolution and actions with set timelines were agreed upon to mitigate any risks identified.

Other key elements of the Group's internal control system include:

- Organisation and definition of the management structure of the Group including areas of responsibility and segregation of authorities and limits.
- Clearly defined delegation of responsibilities to Board Committees and the Management of Head Office and companies within the Group, including authorisation levels for all aspects of the businesses.
- Standard Operating Procedures defined for selected key processes of the Group, which are extended to all operating units. These processes are reviewed periodically to reflect changing risks and/or to resolve any operational deficiencies and promote efficiency and accountability.

STATEMENT ON RISK MANAGEMENT & INTERNAL CONTROL (CONT'D.)

- Segregation of duties to reduce the scope for error and to prevent collusion. Key functions such as accounting, finance and treasury, legal, human resource and regulatory related matters are controlled centrally.
- Established strategic business plan and budgeting process, where all operating units prepare budgets every year, for approval at company level, before being discussed and reviewed by the Executive Committee and/or the Board.
- The Executive Committee of the Board implements the strategies and policies of the Group, ensures the strategic intent of the Group is achieved, and directs and monitors performance processes within the Group.
- Presentation to the Board of timely information on the performance of the Group through quarterly Board documents as well as reports from various Committees and subsidiaries. Quarterly performance reports, benchmarked against budgets and objectives, are provided to directors and discussed at the ARMC and/or board meetings.
- Periodic reviews by the outsourced Internal Auditors to assess the adequacy of internal controls, integrity of financial information provided and the extent of compliance with established procedures and advising management on areas of improvement.

Governance Mechanism

Individual Heads of Operating Units meet with the Senior Management/Executive Committee to review/discuss/visit business objectives and strategies for the coming year's business plan. Once the plan has been agreed upon, the business plans of the respective subsidiaries for the new financial year are presented to the Board of Directors for its review and adoption.

The Senior Management/Executive Committee conducts monthly/quarterly reviews by assessing each company's progress against the budgeted business plan and financial budget. This review provides a forum for all to raise their concerns and suggestions, for periodical monitoring of performance and for major variances to be followed up.

Enterprise Risk Management Framework

The Group has in place a risk management framework which incorporates, amongst others, a structured process for identifying, evaluating and

prioritising risks, as well as clearly defining the risk responsibilities and escalation process of significant risks and an Enterprise Risk management oversight framework.

The Board's primary objective and direction in managing the Group's risks are focused on the achievement of the Group's business objectives. From time to time, the framework is reviewed to ensure risks and controls are updated to reflect current situations and ensure relevance at any given time.

The Group defines risk as any event which may affect the Group and/or operating unit in meeting its objectives including economic, reputation and compliance objectives. The risk is measured in terms of likelihood and impact. The policy is to identify, evaluate and respond appropriately to risks identified so as to protect the Group from loss, uncertainty and lost opportunity.

Quarterly monitoring reports are presented to the ARMC and thereafter to the Board for the required review and approvals.

Assurance Mechanism

The ARMC is empowered by the Board with responsibilities relating to the Group's accounting and reporting practices. The ARMC is also responsible for reviewing and monitoring the effectiveness and adequacy of the Group's system of internal controls and to ensure that an appropriate mix of techniques is used to obtain the level of assurance required by the Board.

The ARMC periodically receives and assesses reports from the independent assurance functions of the Group. The Internal Audit function provides the ARMC with an assessment on the adequacy and integrity of the Group's system of internal control via reports from visits conducted at various operating units.

The External Auditors provide assurance in the form of their annual statutory audit of the Financial Statements. Areas for improvement identified during the course of the statutory audit by the External Auditors are brought to the attention of the ARMC through management letters, or are articulated at the ARMC meetings.

The ARMC has met with External Auditors twice during the financial year without the presence of Management.

STATEMENT ON RISK MANAGEMENT & INTERNAL CONTROL (CONT'D.)

Convening at the very minimum on a quarterly basis, the ARMC monitors and reviews the implementation of safeguards as well as the implementation and progress of any remedial action recommended to ensure that the appropriate risk management and control processes are always in place.

INTERNAL AUDIT FUNCTION

The Group has outsourced the internal audit function to a professional firm of auditors for which, during the year, a fee of RM107,000 was incurred. The internal audit function provides the ARMC and the Board with reasonable assurance regarding the adequacy and integrity of the system of internal control.

The Internal Auditors report to the ARMC with principal responsibility for performing regular and systematic reviews of the system of internal control, risk management and governance processes. This is in order to provide reasonable assurance that the system operates satisfactorily and effectively within the respective subsidiaries as well as across the Group.

The internal audit strategy and a detailed Internal Audit Plan are presented to the ARMC for approval by the Internal Auditors who adopt a risk-based approach. The Internal Audit Plan for the year is developed based on the outcome of the risk assessment and also taking into consideration past audit findings, improvement opportunities and other key factors. Accordingly, the Internal Audit Plan is reassessed periodically to ensure that it remains relevant and aligned with the Group's business objectives/strategies which may change in response to the dynamics of its operating environment.

COMMENTARY ON ADEQUACY & EFFECTIVENESS

The risk management and internal control systems described above have been in place for the year under review and up to the approval of this statement for inclusion in the Annual Report.

In making this statement, the Board has received assurance from the Executive Directors and Chief Financial Officer that the risk management and internal control systems are operating adequately and effectively in all material aspects for the reporting.

For the financial year under review, the Board is of the opinion that the above monitoring and reporting processes provide an adequate form of checks and balances and constitute a sufficient platform for timely and continuous identification of the Group's principal risks. These processes are adequate and sound to provide reasonable assurance in safeguarding shareholders' investments, the interests of customers, regulators and employees, the Group's assets and other stakeholders' interests, as well as in addressing key risks impacting the business operations of the Group.

Review of the Statement by External Auditors

As required by Paragraph 15.23 of the MMLR of Bursa Securities, the external auditors have reviewed this Statement on Risk Management and Internal Control, and reported to the Board that nothing has come to their attention that causes them to believe that the Statement on Risk Management and Internal Control intended to be included in the Annual Report for the financial year ended 31 March 2017 has not been prepared, in all material aspects, in accordance with the disclosures required by paragraphs 41 and 42 of the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers, nor is the Statement on Risk Management and Internal Control factually inaccurate.

The limited assurance review was performed in accordance with the Recommended Practice Guide (RPG) 5 [Revised 2015] issued by the Malaysian Institute of Accountants which does not require the external auditors to form an opinion on the adequacy and effectiveness of the risk management and internal control systems of the Group.

Conclusion

There was no major internal control weakness identified that may result in any material loss or uncertainty that would require disclosure in the Annual Report. The Group will continue to take measures to strengthen the internal control and risk management environment.

This statement is made in accordance with approval from the Board of Directors dated 5th July 2017.
