(The Condensed Consolidated Statement of Cash Flows should be read in conjunction with the accompanying explanatory notes to the interim financial report and the audited financial statements for the financial year ended 31 March 2018.)

1 Basis of preparation

The Group has prepared its financial statements using the Malaysian Financial Reporting Standards ("MFRS") for the financial period ending 31 March 2019.

The interim financial report is unaudited and has been prepared in accordance with the requirements of Malaysian Financial Reporting Standard ("MFRS") 134, *Interim Financial Reporting* and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

The interim financial report should be read in conjunction with the audited financial statements for the financial year ended 31 March 2018. The explanatory notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the previous financial year ended 31 March 2018.

2 Significant Accounting Policies

The significant accounting policies and methods of computation applied in the unaudited interim financial statements are consistent with those adopted in the most recent annual financial statements for the financial year ended 31 March 2018, except for the adoption of the following new MFRSs, amendments to MFRSs and IC interpretations that are effective from 1 January 2018: -

MFRS 9 Financial Instruments (IFRS 9 as issued by IASB in July 2014)

MFRS 15 Revenue from Contracts with Customers

Amendments to MFRS 1 Annual Improvements to MFRS Standards 2014 - 2016 Cycble

Amendments to MFRS 2 Classification and Measurement of Share-based Payment Transactions

Amendments to MFRS 4 Applying MFRS 9 Financial Instruments with MFRS 4 Insurance Contracts

Amendments to MFRS 128 Annual Improvements to MFRS Standards 2014 - 2016 cycle

Amendments to MFRS140 Transfers of Investment Property

Clarifications to MFRS 15

IC Interpretation 22 Foreign Currency Transactions and Advance Consideration

3 First-time adoption of MFRS

(i) Transition from Financial Reporting Standards (FRSs) to MFRS

The Company, in its consolidated financial statements, measured the assets and liabilities of the subsidiaries at the same carrying amounts as in the financial statements of these subsidiaries that have adopted the MFRS framework or International Financial Reporting Standards (IFRS) earlier than the Company, after adjusting for consolidation adjustments.

The effect of first-time adoption of MFRS are primarily from the following:

MFRS 15 - Revenue from Contracts with Customers

The effects of MFRS 15 arise mainly due to the changes to the timing of revenue recognition for the software development activities of the Group.

MFRS 9 - Financial Instruments

MFRS 9 introduces the expected credit losses ("ECL") model on impairment that replaces the incurred loss impairment model used in MFRS 139. The ECL model requires impairment to be recognised on initial recognition including expected future credit losses whilst the incurred loss impairment model only requires recognition of credit losses incurred as at reporting date.

The assessment of credit risk, as well as the estimation of ECL, are required to be unbiased, probability-weighted and should incorporate all available information which is relevant to the assessment, including information about past events, current conditions and reasonable and supportable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL should also take into account the time value of money. As a result, the total ECL allowances computed under MFRS 9 is higher than the total allowance for impairment under MFRS 139 as a more forward looking approach is adopted.
